

USERS MANUAL

PREPARATIONS

- (1) Download and install Drople App from AppStore (iOS) or Google Play (Android)
- (2) Verify that your device is Bluetooth Smart compliant and if using Android that the device is running an Android version 4.3 or later
- (3) Verify that Bluetooth is enabled in your smart phone settings.
- (4) Create an Drople account and login to the App using your account credentials.

ACTIVATION (new device)

- (1) Hold the Drople in your hand with the logotype facing straight upwards.
- (2) Flip it over on the other side, wait ~ 1 second, then flip it back again, wait ~1 second, etc. Continue to flip the device until you hear a BEEP and the red LED starts flashing.
- (3) Open the Drople App on your smart phone and follow the on screen instructions to add a Drople to your tags inventory.

For more information on using your Drople device go to www.drople.com
